POLICY STATEMENT

Gateway HealthSM may provide coverage under the medical-surgical benefits of the Company's Medicare products for medically necessary Cataract extraction procedures.

This policy is designed to address medical necessity guidelines that are appropriate for the majority of individuals with a particular disease, illness or condition. Each person's unique clinical circumstances warrant individual consideration, based upon review of applicable medical records.

PROCEDURES

In accordance with the CGS Administrators, LLC LCD L33954, Gateway HealthSM requires that the medical record contains the following documentation:

- The medical record must support the medical necessity of the cataract extraction; AND
- The medical record must contain elements of the preoperative workup as described in the “Indications and Limitations of Coverage” and/or “Medical Necessity” sections of the LCD

Note: The provider is responsible for selecting the appropriate ICD-10 diagnosis codes that support the medical necessity of the cataract extraction. The CGS Administrators LLC LCD L33954 provides the ICD-10 codes necessary for claims processing.

A. Coverage Determination
